Quantum food and nutrition: Subatomic approaches to nourishment for health and well-being

Feb. 2025

"We propose 'quantum nutrition' as an approach to reconcile quantum phenomena with nutritional biology.

Appreciating quantum nutrition and recognizing its potential applications will provide opportunities for future health and well-being and for planetary habitability."

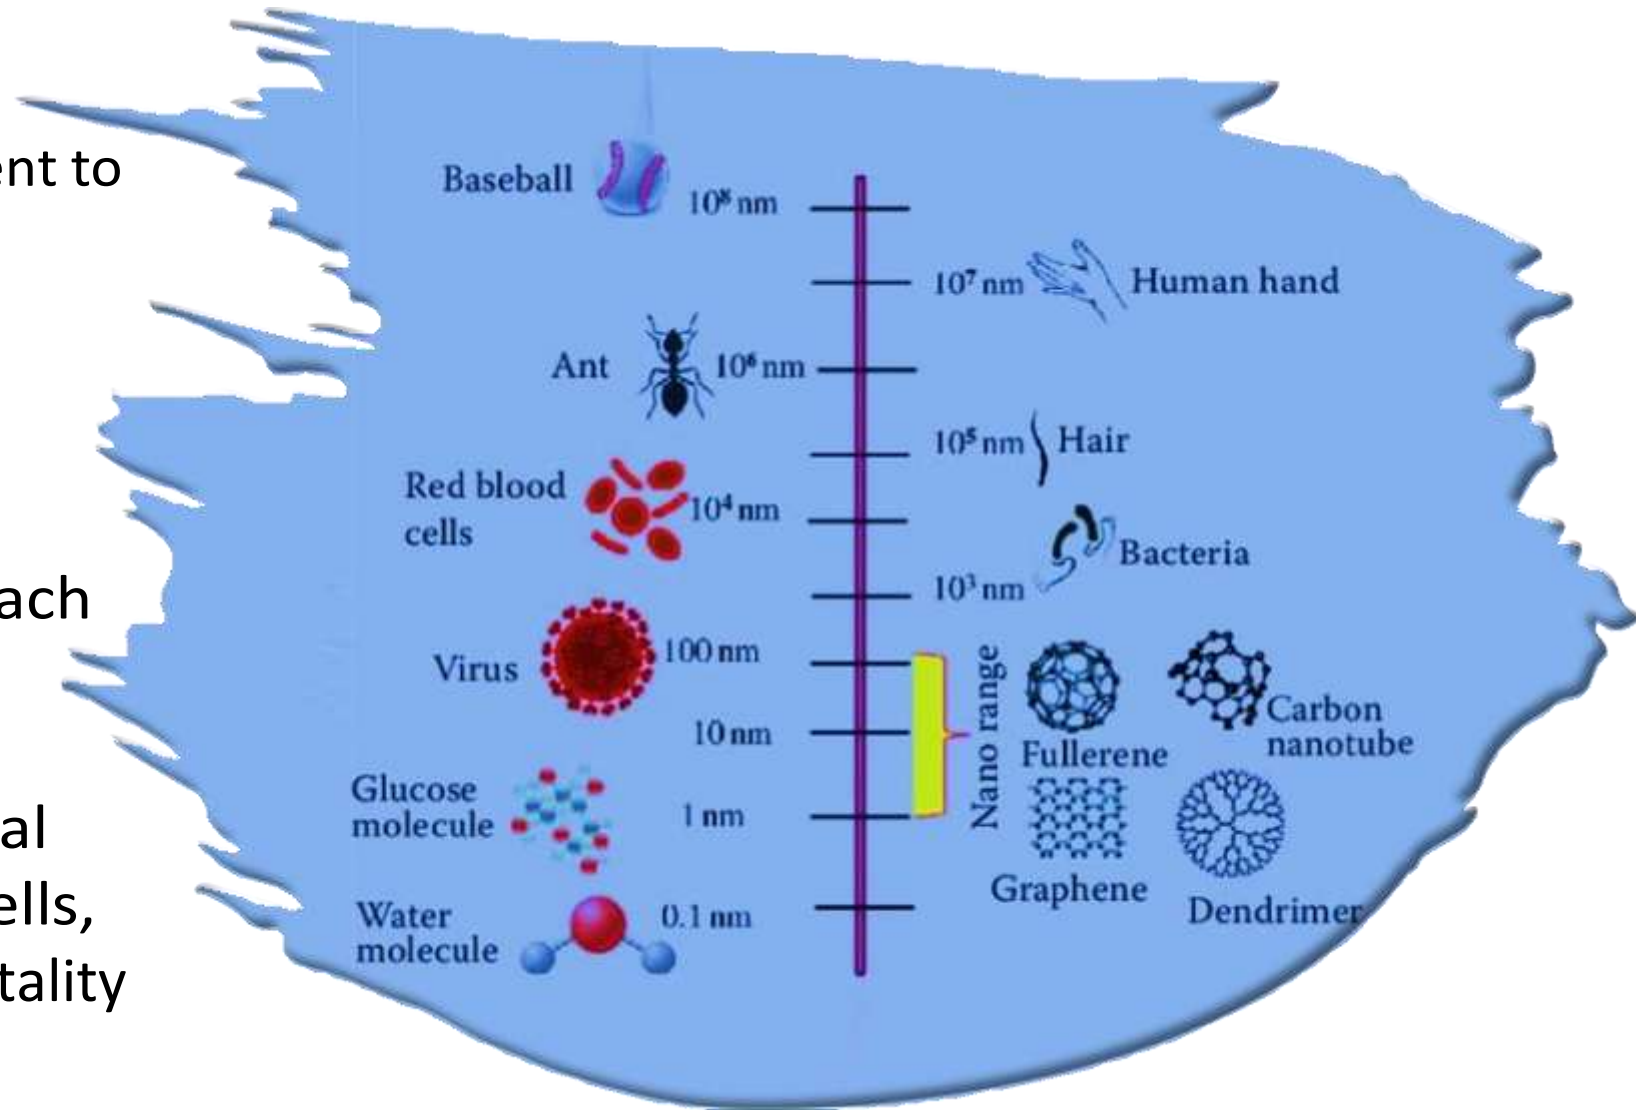

livelihoods. Our nourish-ments include not only food and energy but also light from the sun, the firmament and the earth itself, along with information transmitted in subatomic particles and electromagnetic wave forms. We propose 'quantum nutrition' as an approach to reconcile quantum phenomena with nutritional biology. Appreciating quantum nutrition and recognizing its potential applications will provide opportunities for future health and well-being and for planetary habitability.

Frequency Quantum Biological Technology

Through this unique technology, we can reduce the size of a nutrient to the subatomic.

Intra-Oral Absorption Strip Technology:

- Utilizing a revolutionary scientifically proven approach rooted in Quantum biology, these innovative strips are designed to deliver essential nutrients directly to your cells, ensuring optimal health & vitality

PHYTOPLANKTON

Scientifically Proven to
Aid the Whole Body

Marine phytoplankton is an excellent source of all the trace minerals that the body needs in the most bioavailable form

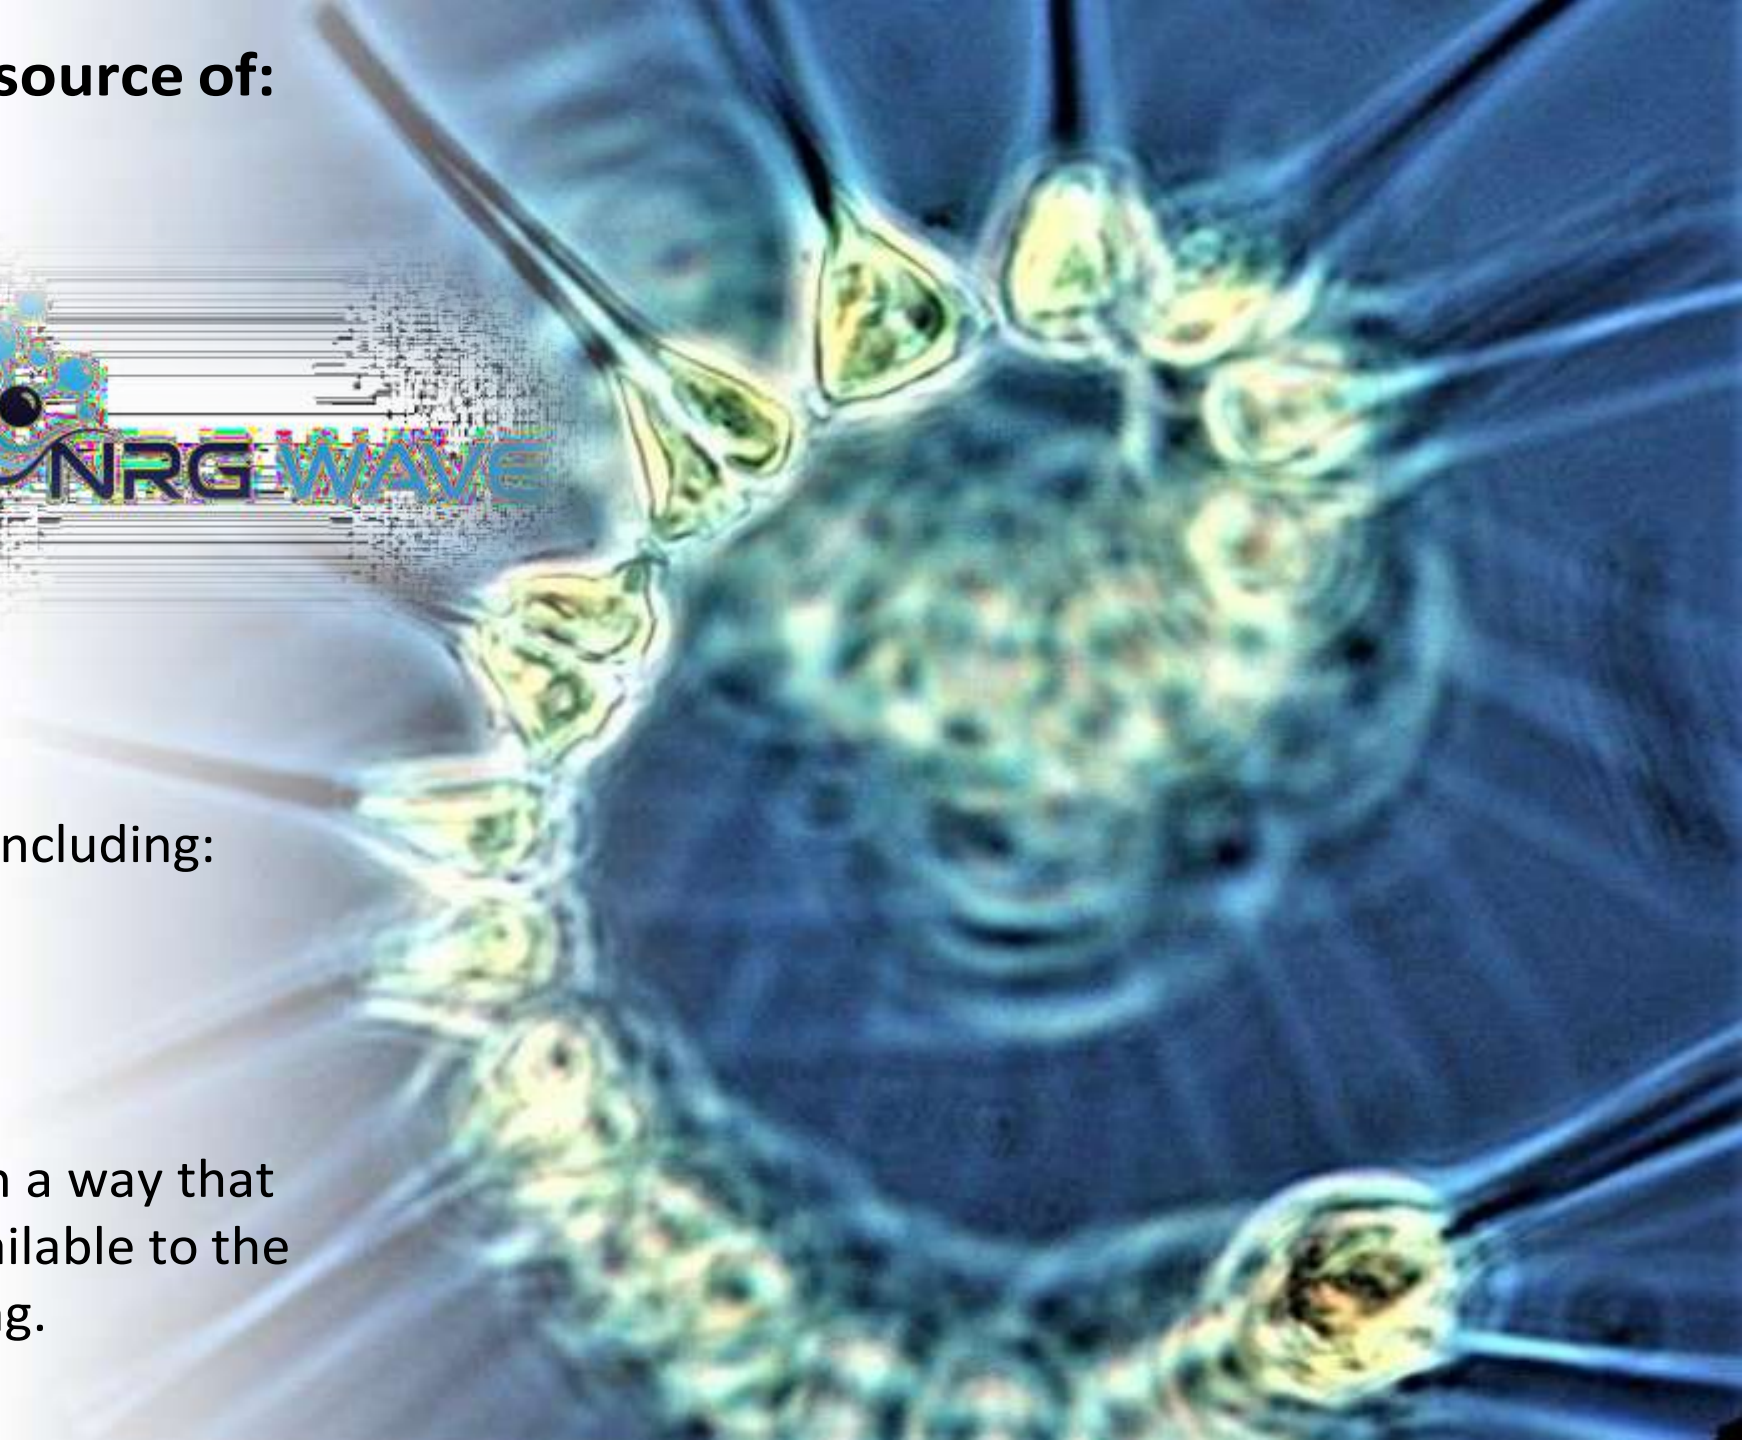

Phytoplankton is a strong source of:

- Omega 3 fatty acids
- Proteins
- Amino acids
- DHA
- EPA
- Carotenoids
- Powerful Antioxidants
- Nucleic acids
- Vitamin A
- Multi B Vitamins

And an assortment of minerals including:

- Copper
- Magnesium
- Potassium
- Zinc

All these nutrients are packed in a way that makes them 100 percent bioavailable to the body; the cells absorb everything.
